INSTRUCTIONS FOR PROCEDURE FOR HANDLING TRANSPORT DAMAGE

1. Transport or packing damages are detected on the outer packaging on arrival:

Write down the transport damage detected on the consignment note giving as much detail as possible (quantity, weight, type of damage), add the remark “conditional acceptance only” and get it countersigned by the representative of the carrier (for example the driver).

2. Damages that are not immediately noticed:

Please notify us of any damage found within 5 days of delivery using our form “Notice of transport or packing damage”

Procedure

1. Notify UWT of transport damage as soon as possible using the “Notice of transport or packaging damage” form
2. Do not make any alteration to the product and await further instructions from UWT
3. Please await the return of goods authorization from UWT
4. Damaged goods may be returned to us once authorization has been received

Documentation

The following documents are required:

- ✓ Copy of the consignment note marked „conditional acceptance only” including detailed description of damage or separate damage report
- ✓ Name and telephone number of the person taking receipt of the damaged goods
- ✓ Invoice and delivery note of the damaged goods
- ✓ The photos must show the following details:
Pictures of outer packaging, damage of the outer packaging (where appropriate), inside view of the parcel and contents including a close-up of the damaged goods.
